ZOPPAS INDUSTRIES Partner

- Experience Zoppas Industries increasing efficiency using lean enterprise across all facilities and departments.
- Access our state-of-the-art laboratory facilities with over 30 years' design experience.
- Benefit from Zoppas Industries manufacturing and design facilities which maintain Quality Management Systems according to ISO 9001, EN 9100, Environmental Management System according to ISO 14001 and Energy Management System according to ISO 50001.
- Access one of the widest Heating Element Technology product portfolios in the world including completely integrated thermal assemblies with sensors, connectors, enclosures, etc.
- Benefit from Zoppas Industries global presence through design and manufacturing facilities across Europe, North America, South America and Asia - lowering your Total Cost of Ownership (TCO) including reduced logistics, design, communication and support costs.
- Access Zoppas Industries' in-house design, development and R&D capabilities, such as CAD 3D design, FEA, DOE, FMEA.
- Benefit from Zoppas Industries products third-party certification, such as UL and VDE: marking applied on customer's request.

We at ZOPPAS INDUSTRIES put you in the front seat of internationalization - sourcing your local needs globally.

COMPANY CERTIFICATIONS

PRODUCT TRADEMARKS

Compliance with the mark of each specific product must be properly reviewed with our Sales Department.

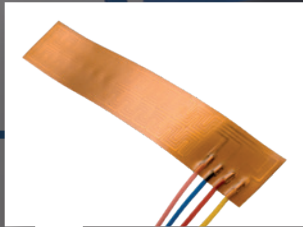

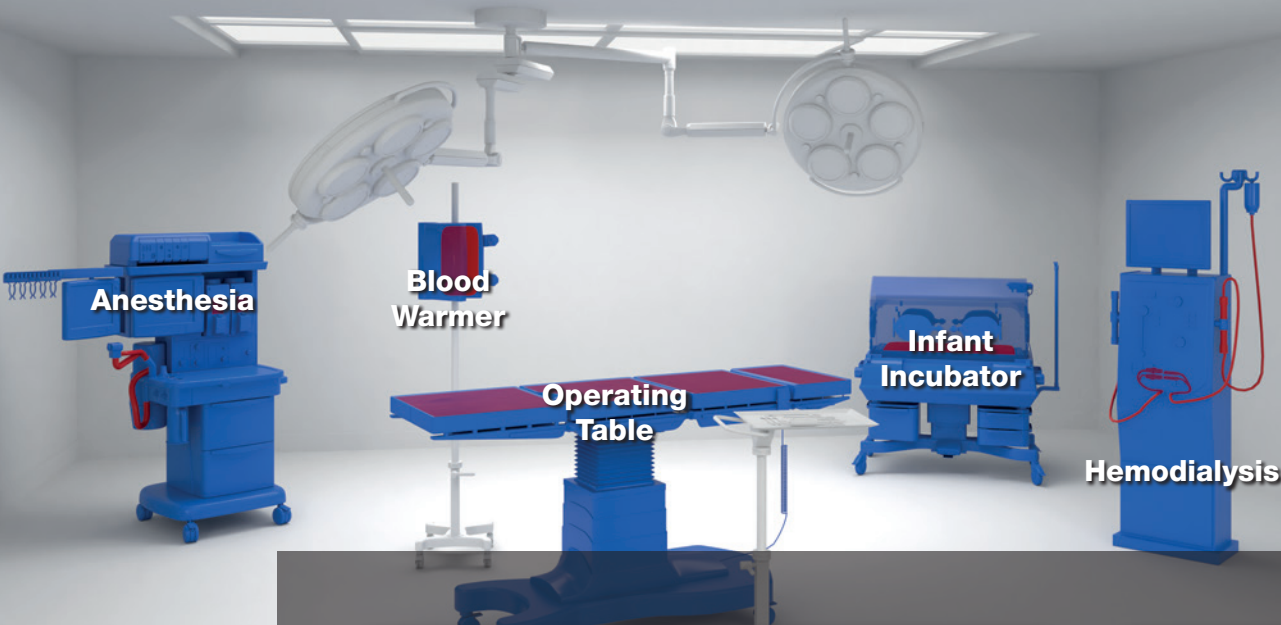

cod. 690943577 - 0921

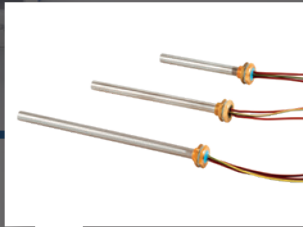

With over 30 years supplying heating assemblies to the medical OEM's we know what challenges the design and product development engineers face. For that reason, we trust in the process of early supplier involvement (ESI). ESI presents an engineer with a direct outline of our capabilities. Complex thermal assemblies required for a wide range of medical applications such as Diagnostic (In-Vivo / In-Vitro), Point of Care, Life Science, Dental, Imaging and many others demand a complete range of heating technologies from a global company, Zoppas Industries. Maybe you must reduce the size or mass of your portable device for use in clinical or home environments. Your

objectives include power efficiency, temperature control, faster cycling or increased throughput without sacrificing the accuracy that built your reputation. Your design cycle is short and includes requirements to contain costs. We are your sole source for complete value-added assemblies that include SMD sensors, layered insulation, connectors and many other critical components. All Zoppas' thermal solutions are custom designed for optimal performance in your medical application. Zoppas Industries Heating Element Technologies manufacture thermal assemblies that meet agency approvals and compliance including RoHS, CE, VDE and UL®.
