local
supplier**

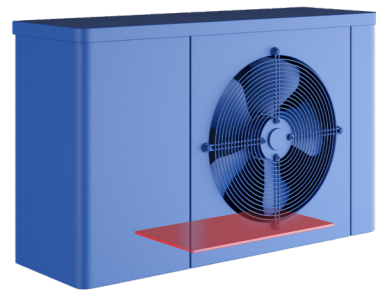

**60
Years of
business
experience**

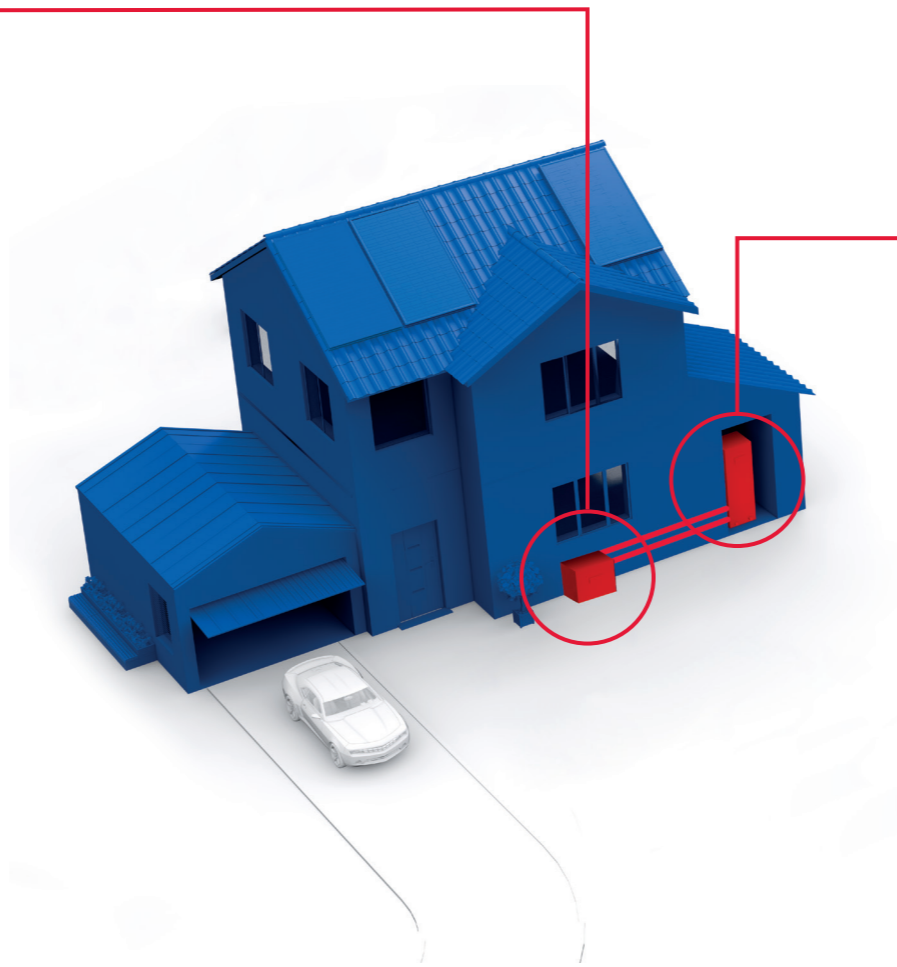

It is recognised that heat pumps are the most efficient way to heat and cool a house. Zoppas Industries offers a complete range of products for this type of system, guarantying reliability, safety and performance. We work to support our clients' growth, through appropriate production facilities and a dedicated supply chain.

OUTDOOR UNIT

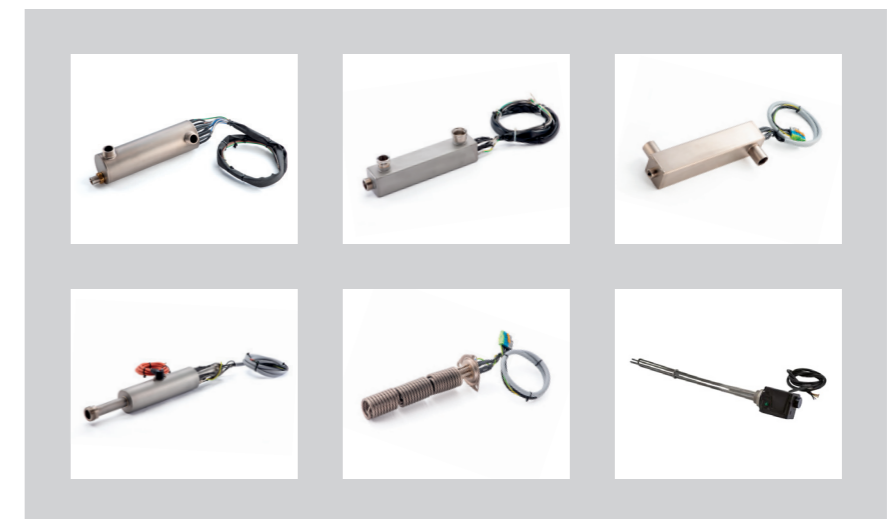

DE-ICING AND ANTI CONDENSATION HEATERS

INDOOR UNIT & WATER STORAGE

BACK UP HEATERS

As Our specific heating elements ensure the perfect functioning of heat pumps:

- Enabling considerable energy savings
- Creating a rapid return on investment
- Contributing to eco transition and to the reduction of CO² emissions, compared to any other fossil fuel heating solution
- Making the whole process efficient
