COMPANY CERTIFICATIONS

PRODUCT TRADEMARKS

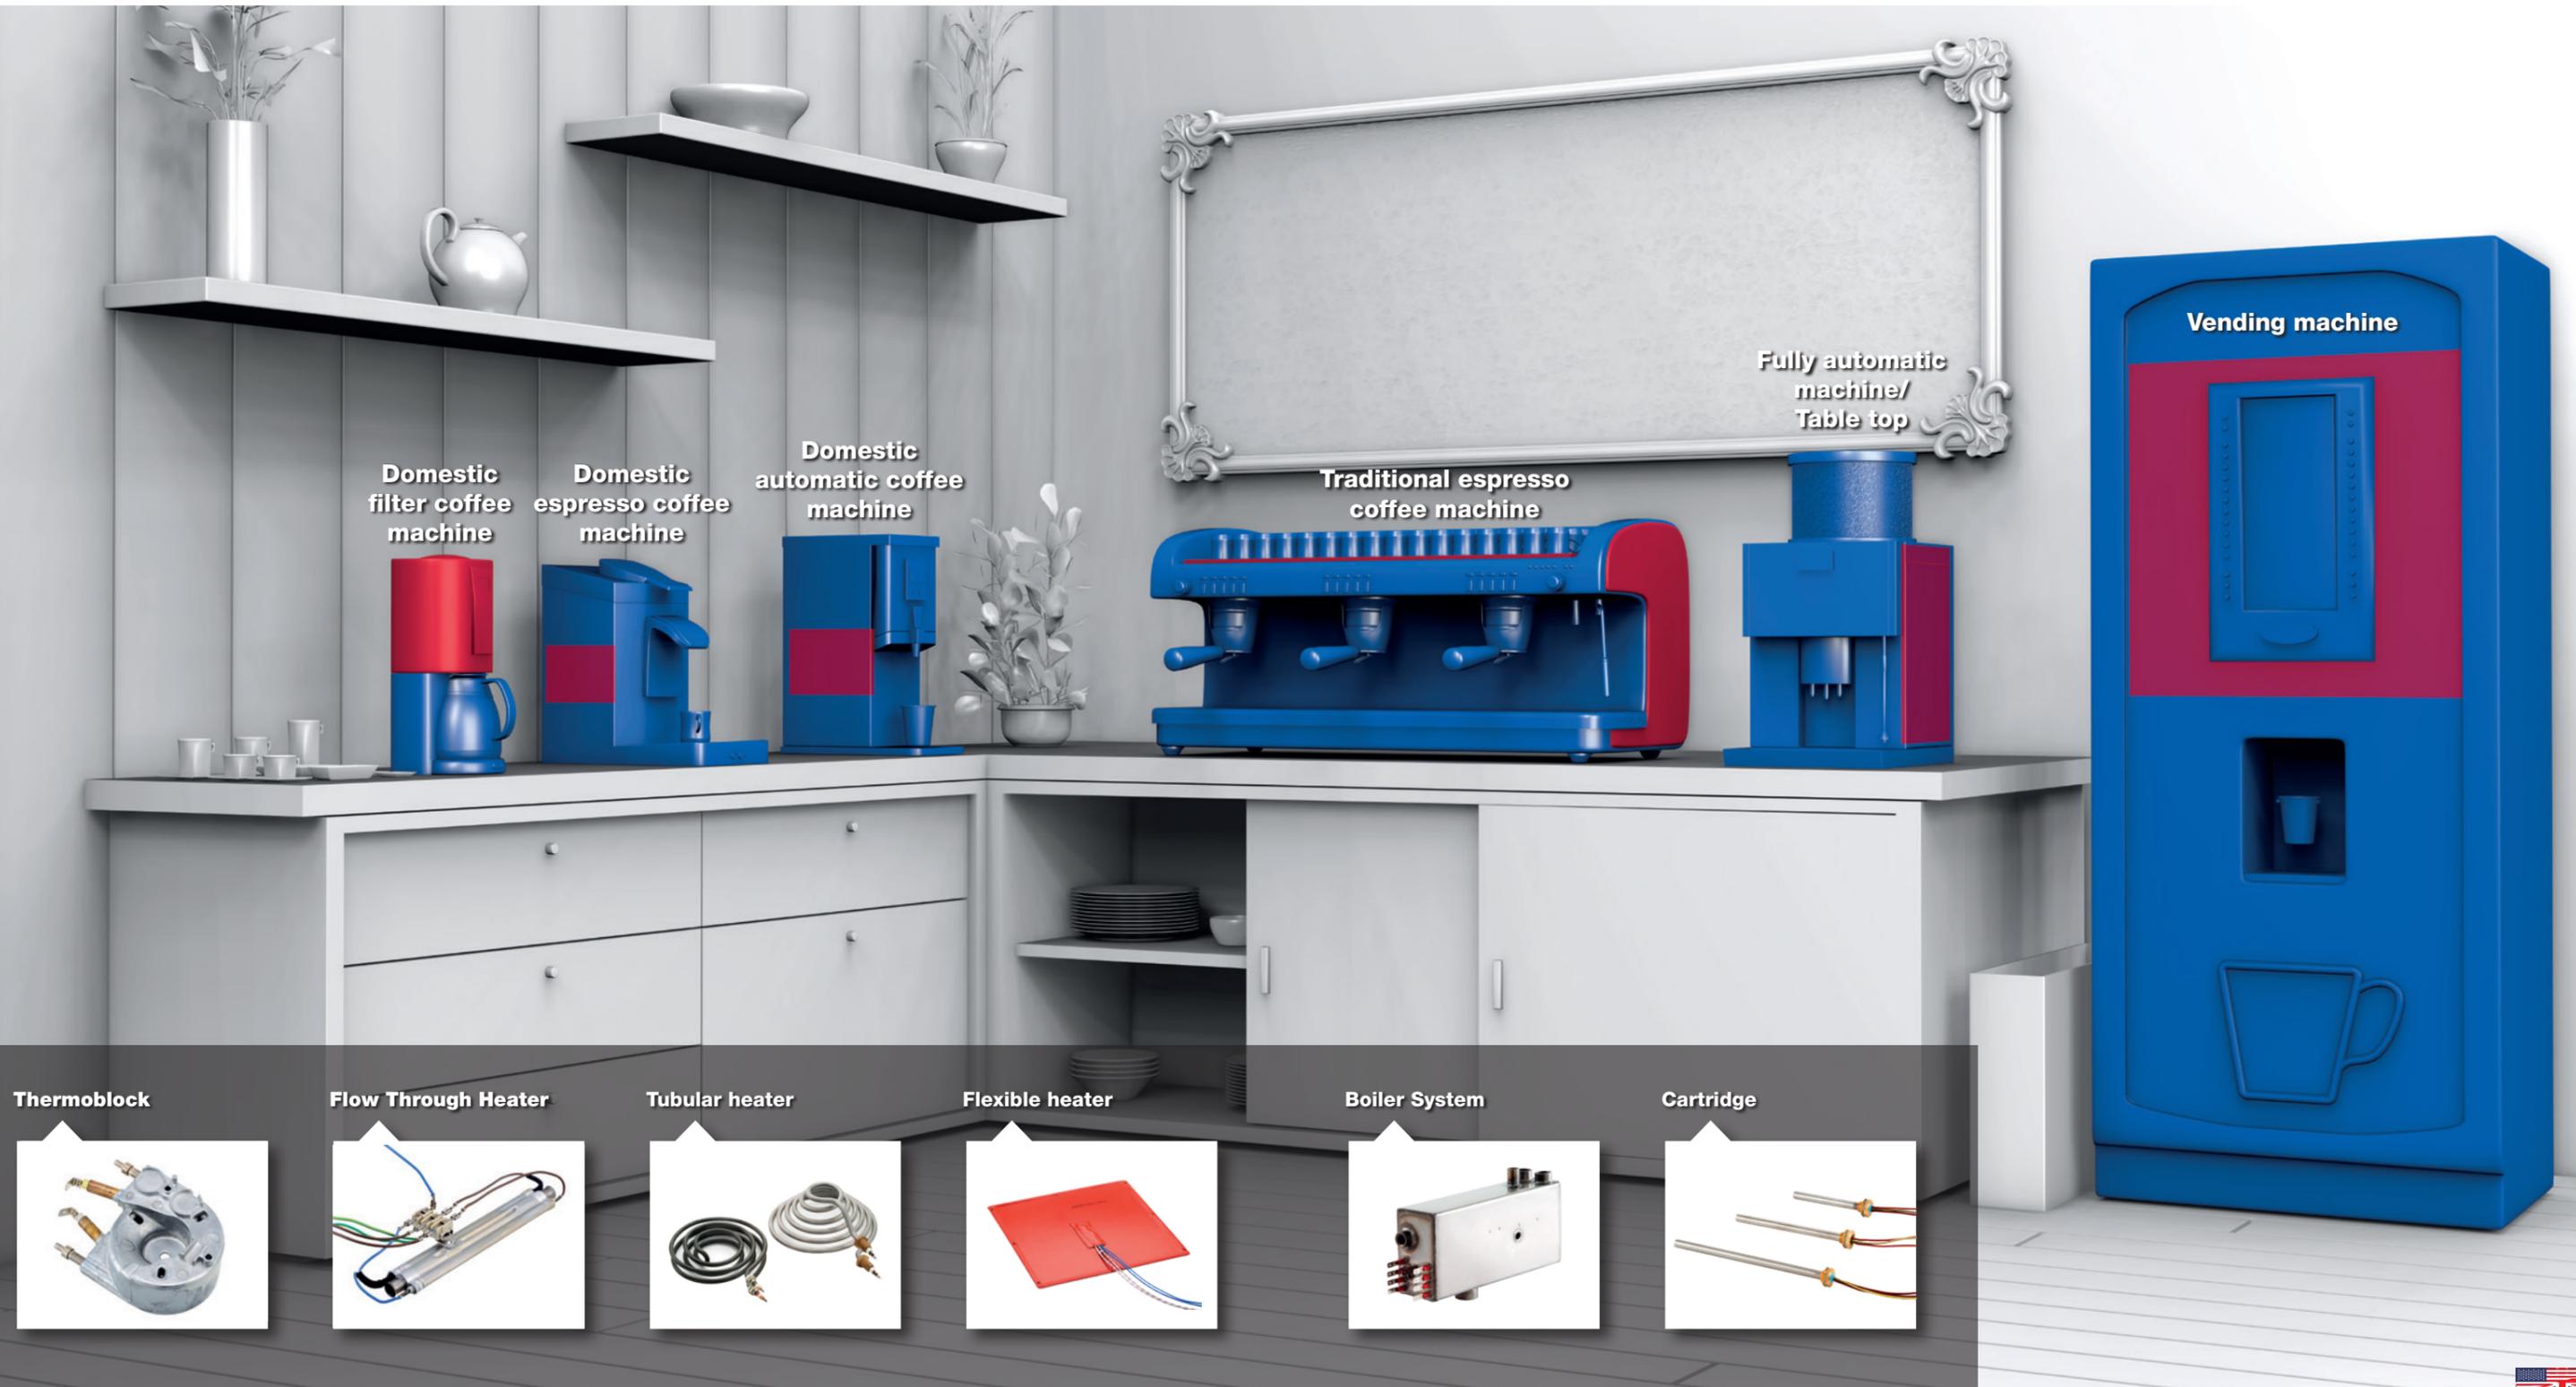

Compliance with the mark of each specific product must be properly reviewed with our Sales Department.

Our customers have at their disposal our vast experience in designing and manufacturing top quality innovative heating elements, for the producers of professional coffee-making machines. In order to successfully meet each individual request, we propose a full range of electrical heaters and a wide range of materials for professional coffee makers and vending machines.

In order to satisfy our customers with complete up-to-date equipment, we offer a qualified consultancy and co-design service, as well as the possibility to carry out specific tests in our laboratories. All of the products we provide are suitable for contact with food and comply with international food compliance standards.
